

SCHEDULE 5R (HTM)

KENNEL UNION OF SOUTHERN AFRICA REGULATIONS & GUIDELINES FOR HEELWORK TO MUSIC

Effective 01.04.2017

1. Definition of Heelwork to Music

Heelwork to Music (HTM) are team sport where one member of the team is a dog.

HTM routines should create a visually exciting display which is enjoyable to watch and which is equally enjoyable to dogs and handlers executing the programs.

The movements of the handler/dog team should be in time with and match the style or theme of the music being played. In some cases, the movements will be in the form of dance steps and body positions. In other cases, as in a theatrical or story-telling routine, the team will be performing interpretive movements, moods, and/or expressions to match the music selected.

All movements performed by the dog (and handler) are to be natural, comfortable and safe, with no forced or un-natural movements displayed.

With each higher level of competition, the team will be expected to perform a higher quality / level of interpretive movements in their routine.

HTM can be described as a choreographed musical routine performed by handlers and their dogs.

An HTM routine should be done with the dog and the handler in close proximity to each other throughout the routine. On all moves, the dog and handler team should move as one entity

throughout the routine, displaying heelwork and creativity in the many positions and behaviours possible in HTM.

Heelwork is defined as any position between the handler and the dog within 360 degrees radius and includes, but is not limited to: right heel; left heel; face-to-face; face-to-back; back-to-back; back-to-face; and all angled positions between handler and dog within 360 degrees.

During heelwork sequences, behaviours, and/or moves the dog and the handler should maintain the same close proximity to each other throughout each type of sequence, behaviour, or move. During a move such as a spin, the closest part of the dog's body in relation to the handler (head, shoulder, side, rear) should maintain the same close proximity.

The general heelwork position and proximity in a HTM routine will be determined during the first 15 seconds of the routine.

HTM routines may include:

- a. Sustained close-in heelwork sequences, with the dog and handler moving together in sustained parallel position to one another (straight, curved or circular patterns);
- b. Moving or stationary close-in heelwork behaviours done next to the other or together (for example, spins, turns, pivots, paws or hands on moves etc.);
- c. Close-in connecting moves (either stationary or in motion) that connect heelwork sequences together;
- d. Other creative and/or original close-in moves.

HTM routines may not include:

No distance work should be included in HTM routines.

The dog or the handler should not weave through or be in-between the other's legs or arms in HTM routines. (Note: The dog's tail is excluded from this).

No intentional attempt on the part of the dog or the handler to jump, either horizontally or vertically, should be included in HTM routines.

7. How Levels Advance

RECORD CARDS

All teams will be issued with a record card.

All qualifications must be recorded in the team record card and signed by the officiating judge.

QUALIFYING SCORES

Teams that achieve a qualifying score at these levels will receive a QC.

Any routine which earns qualifying scores within its class is eligible for a QC, regardless of the number of entries in that specific class.

To progress to the next level, teams must collect at least the following number of QCs:

Level	Class	Minimum qualifying score		QCs required to progress to the next level

International		TBA	TBA	TBA
---------------	--	-----	-----	-----

Copies of the QCs need to be submitted to KUSA for approval and the awarding of a Title Certificate.

No Title Certificate is awarded for Beginners.

A handler/dog team may choose to move up to the next level immediately once all required qualifications have been obtained e.g. on the next day in back-to-back events.

Any scores they receive in any events while remaining at that level will not count towards their next level title.

Handler/dog teams may stay at a level for as long as they like.

There is no rule stating that a routine should be retired after it has won a title. However, it is recommended that handler/dog teams change their routines, to display their innovation and progression to the best advantage with new routines.

8. Description of Levels

ROUTINE LENGTH AND JUDGING TIME

A time length requirement (min and max) for all routines is listed for each of the classes. The routine must be executed within those times. If the routine time is shorter or longer than the allowable time, the routine will be disqualified.

The judging time of the routine begins when either the dog or handler begins to move, (not necessarily when the music starts). The time will stop when both the dog and handler have stopped moving (the ending pose of the routine).

CUES

Within the execution of the routine, the handler may use verbal cues, as well as physical cues. However, excessive use of using hands to lure the dogs will result in lower scores.

Before commencing the competition the Judge will brief the handlers. He/she may draw their attention to some of the regulations, explaining the nature of the competition and the manner which the competition will be graded.

Exhibit Number

On entering the ring a handler needs to display his/her exhibit number, in order to be positively identified. However, it is not necessary to wear the exhibit number while in the ring.

14. Ring Size & Demarcation of Performance Area

The performance area for all events is to be a minimum of 10m x 20m, clearly demarcated and housed within a larger demarcated ring, ideally 20m x 40m.

Where possible, the judge/s will sit within the ring but outside the performance area on a long (20m) side as shown below.

The routine executed must start, continue and finish within the confines of the performance area.

It is the responsibility of the hosting club to draw up the running order, displaying the order in which the routines are to be performed, and this running order must be clearly displayed for competitors outside the ring.

No spectators or dogs are allowed within the ring. Only the currently performing team is allowed in the ring or performance area.

Spectators are expected to adhere to general rules of basic good manners, and not intentionally distract the dog in any way, or throw anything into the ring. Should this occur, the organising club reserves the right to request that particular member of the audience to vacate the premises

Ideally there should be an allocated practice area for competitors. This practice area must be safe, and out of sight of the main ring, so as to not distract or interfere with a competitor whilst executing his / her routine.

KUSA, the organising club, and the judge/s present will ensure that each competitor receives a fair, complete and un-interrupted performance of their routine.

A prospective judge needs to complete the following sequence to the satisfaction of KUSA:

- c. Co-judge a minimum of 2 live events and submit a report for scrutiny to their mentor. Once approval the report will be submitted to another qualified judge and KUSA for final approval. On approval of this report they will be considered Judges and be eligible to judge competitions.
- d. Attend at least one judging workshop / training course in every two year cycle.
 - Failure to attend workshops in a two year cycle will result in a judge need to co-judge a minimum of one live event and submit a report for scrutiny.
- e. International judges qualified as at October 2016 will automatically become KUSA qualified judges.
