

SCHEDULE 5(L) REGULATIONS FOR AGILITY CLASSES

(Effective 01.10.2020)

INTRODUCTION

Agility is a dog competition open to all dogs. The idea is to have them negotiate a variety of obstacles to assess and enhance their intelligence and agility. It is an educational and sporting activity intended to improve the dog's integration into society.

The sport requires good rapport between dog and handler which will result in perfect understanding. Competitors therefore must be familiar with elementary training and basic obedience.

Anything referring to Agility will also refer to Non-Contact Agility unless otherwise stated in the schedule.

1. REGULATIONS FOR AGILITY

1.1 Licensing and Show Rules

The Regulations relating to licensing and to all other matters to do with shows as set out in Schedule 3 (Championship Shows), Schedule 3(A) International Dog Shows (FCI) and Schedule 4 (Non-Championship Shows) of the Constitution of the Kennel Union of Southern Africa shall apply to competition for Agility Shows so far as they can be relevant to Agility Shows and so far as they do not conflict with the specific terms of this Schedule 5(L).

1.2 Scope of Licence

Any club affiliated to the Kennel Union of Southern Africa and is eligible to hold either Non-Championship or Championship shows may apply for and be issued with a Licence to hold Agility Classes with any show or separately there from, but may not hold Championship Agility Classes more than twice in any one (1) calendar year.

Any provincial Agility Sub-Committee may apply for not more than four (4) Non-Championship Show licences in any calendar year. These licences may not be used for the South African Dog Agility Championship final event.

1.3 Agility Certificates

A KUSA Agility Qualifying Certificate, in each size provided for in these Regulations will be awarded at Championship Shows in Agility 3 to dogs with clear rounds, provided that a minimum of one (1) dog has competed. The Qualifying Certificates go to the dog/dogs with the fastest clear round in accordance with the table in regulation 1.3.1

1.3.1 The number of Qualifying Certificates to be awarded as per the following table:

Number of Dogs:	Number of QC.s
One(1) to Fifteen (15)	One (1)
Sixteen (16) to Thirty (30)	Two (2)
Thirty one (31) and above	Three (3)

A Winners Qualifying Certificate will be awarded to the first placed dog, a Qualifying certificate will be awarded to the second and third placed dogs, with their placing endorsed thereon, where applicable.

1.4 Qualification

1.4.1 In all Agility tests a Qualification shall only be gained if the dog completes the Agility round without accumulating any faults.

1.4.2 Total penalty means the sum of all the faults allotted on the obstacles and the faults for exceeding the Standard Course Time (SCT) (see Regulation 6.1.1).

1.5 Champion Status

1.5.1 Champion

A dog awarded three (3) Agility Qualifying Certificates in Agility 3 Contact or Non-contact respectively at Championship Shows, in any one (1) size category, each by a different Judge, will qualify as an Agility Champion and a KUSA Certificate to this effect will be issued. Effective date 1st January 2000

1.5.2 Grand Champion

A dog awarded fifteen (15) Agility Qualifying Certificates in Agility 3 Contact or Non-contact respectively at Championship Shows, in any one (1) size category, will qualify as a Grand Champion and shall be issued with a KUSA certificate to that effect.

i.e.: Grand Champion – Contact
Grand Champion – Non contact

Note: Subject to the restrictions contained in Reg.1.4.1, all qualifications gained may be counted towards Grand Championship status which is effective from 1 April 2010.

1.5.3 International Agility Champion

A dog that has been awarded an FCI Breed rating of “Good” and has obtained two (2) CACIAG certificates at licensed FCI (International) shows within/outside South Africa, in any one (1) size category, each by a different Judge, will qualify as an International Agility Champion and a FCI Certificate to this effect will be issued. Application for an International Agility Champion must be made through KUSA.

1.6 Registering and Eligibility of Dogs for Competition

1.6.1 Championship and Non-Championship Shows.

1.6.1.1 All dogs must be on a Kennel Union Register or Record or be registered with an organisation in reciprocity with or which there is a written agreement with KUSA.

1.6.1.2 All dogs must be eighteen (18) months of age or over on the first day of the show.

1.6.1.3 Foreign handlers/dogs must show they are a member of and their dogs registered with a national canine organisation affiliated to the FCI or with whom the Kennel Union has a reciprocal agreement with and that they compete in their country of permanent residence and are able to produce a Record Card or Book to prove this.

All foreign dogs shall be tattooed or micro chipped. This would include any South African owned dog participating in the Agility World Championships.

1.6.1.4 All competitors must possess a Record Card in which competition results are recorded.

1.6.2 No dog or person entering Agility Shows shall be under suspension or disqualification by KUSA or any organisation with which it is in reciprocity or with whom KUSA has a written agreement.

1.6.3 Not for Competition (NFC)

1.6.3.1 Handlers may enter their dogs as “Not for Competition” (N.F.C.) at Non Championship Shows only. The dog entered as ‘NFC’ should be clearly marked on the entry and score sheet. The handler and dog will be allowed in the ring for the maximum course time.

1.6.3.2 No dispensation in respect of Regulation 4.7 Discipline of Dogs shall be permitted. Dispensations in respect of Regulations 4.8 Practice and 4.9 Rewarding of Dogs are allowed. The dog may not be rewarded with food in the ring. The handler and dog will run last in their respective class.

1.6.3.3 Dispensations allowing a competitor to compete in a lower height than eligible may be permitted but not to compete in a higher height than eligible. Dispensations allowing a competitor to compete in a lower class than eligible may be permitted but not to compete in a higher class than eligible.

1.6.3.4 ‘NFC’ entries shall be identified by the judge/scribe to the other competitors when the handler enters the ring and shall not be marked or be eligible for prizes or qualifications.

1.6.3.5 A dog may only enter one (1) Agility and/or one (1) Non-Contact Agility grade per show.

1.6.4 Veterans Class

1.6.4.1 The Veteran Class may be offered at the discretion of the show holding club.

- 1.6.4.2 The Class is only for dogs who are a minimum age of 7 years and have previously entered other classes competitively i.e. the dog must have record cards.
- 1.6.4.3 Dogs entered in the Veteran Class at a show may only compete in their respective Veteran Class (refer to Regulation 1.6.3.5).
- 1.6.4.4 The Veterans class will be run on the Contact 2 and Non-Contact 2 courses.
- 1.6.4.5 Obstacles:

Veterans Class	Jump height	Long Jump (Depth)
Small	20cm	40cm
Medium	30cm	50cm
Large	40cm	90cm

- 1.6.4.6 The Tyre and Spread hurdle are not permitted to be used in the Veterans Class.
- 1.6.4.7 The running order of the Veterans class will be at the judge's discretion.

2. TYPES OF AGILITY CATEGORIES

- 2.1 Three (3) categories exist:
 - 2.1.1 The "S" (Small) category: For dogs measuring less than 35cm at the withers.
 - 2.1.2 The "M" (Medium) category: For dogs measuring 35cm or more and less than 43cm at the withers.
 - 2.1.3 The "L" (Large) category: For dogs measuring 43cm or more at the withers.
 - 2.1.4 Dogs may only jump in their own category, with the exception of regulation 1.6.3. The obstacles must meet the specifications defined for each category.
 - 2.1.5 Dogs close in size to the limits of "S, M or L" will be required to be measured to determine the height at the withers. Dogs may be re-measured at any time and if such dog is re-classified into the next category, any Certificates won in the previous category do not count towards Championship status in the new category. The dog's Record Card must be endorsed that it is no longer in the previous category.
 - 2.1.6 Prior to entering an Agility Event for the first time, the handler shall produce their dog's Registration Certificate to prove age. Any dog whose size is close to the limit "S, M or L" shall be measured by the Agility Judge of the day on a flat level surface and have the relevant Record Card signed and filled in if the Dog is 42.99cm or less at the withers.

2.2 Levels of Agility classes

- 2.2.1 Any dog which has had three (3) clear rounds in Agility 1 in either a Championship or Non-Championship show, must then advance to Agility 2. The same will apply to Agility 2.

As of 01 January 2021: Any dog which has had four (4) clear rounds in Agility 1 in either a Championship or Non-Championship show, may then advance to Agility 2. The same will apply to Agility 2.

- 2.2.2 Void

As of 01 January 2021: Any dog which has had six (6) clear rounds in Agility 1 in either a Championship or Non-Championship show, must advance to Agility 2. The same will apply to Agility 2.

- 2.2.3 Qualifications gained at events held in terms of Schedule 5D Regulations for Dog Jumping do not count towards any qualification in Agility.

- 2.3 No dog that has qualified out of a class or category may enter that class or category again, with the exception of regulation 1.6.3.

As of 01 January 2021: No dog that has qualified out of a class/category or has advanced at the discretion of the handler, may enter that class or category again, with the exception of regulation 1.6.3

- 2.4 At the conclusion of the judging of a class, it is the responsibility of the Judge of that class to enter in each dog's Record Card particulars of the show with details of marks scored, appropriate placing

and certificates awarded when such information is relevant to the dog's eligibility to compete in a higher class or to the dog's achieving Champion status.

2.5 Show Entries

- 2.5.1 It is permissible to enter a dog for competition in an Agility Class in anticipation of the dog qualifying to compete in that class at a previous show, provided that the entry is made in accordance with these Regulations and that the dog qualifies prior to the day of the show.
- 2.5.2 It is permissible for a dog to partake in a higher class than the class entered in advance of a show, provided that the dog has qualified out of the lower Class prior to the show.

2.6 Training and Qualification of Judges and course designers

- 2.6.1 Persons wishing to become Agility Judges must be at least eighteen (18) years of age and should make application to the Agility Sub-Committee of the Provincial area in which they normally reside. In areas where there is no Provincial Council, application should be made direct to KUSA.
 - 2.6.1.1 Such applicant should have acted as an official (Steward, Marshall, Timekeeper, Scribe, Scorer) or competitor at agility shows for not less than one (1) calendar year.
 - 2.6.1.2 Once a person has been accepted by their Provincial Council Sub-Committee or by KUSA, before they may accept an Agility 1 Non-Championship Show appointment, they must attend a course and achieve the required pass rate in all elements of the course as stated in Regulations 2.6.1.3 to 2.6.1.7.
 - 2.6.1.3 A Candidate Judge shall attend a course which shall cover the Rules and Regulations (Schedule 5L) judging techniques and course design. This course shall be run by three (3) Championship show Agility Judges. On completion of the course, the Candidate Judge shall then take an Examination and a Practical test which shall consist of the following:
 - 2.6.1.4 A written Examination on KUSA Rules and Regulations. (Unless previously done)
 - 2.6.1.5 An oral or written Examination on the Agility Schedule and judging techniques.
 - 2.6.1.6 Design an Agility 1 or 2 and an Agility 3 course (the decision whether Agility 1, 2 or 3 to be left to the discretion of the examiners).
 - 2.6.1.7 Practical judging of five dogs competing a full round of either Agility 1, 2 or 3 (at the discretion of the examiners). The design of the course for the practical examination will be undertaken by the examiners and not by the Candidate judges.
 - 2.6.1.8 Once a Candidate Judge has successfully passed the examination, they will be required to judge three (3) Non-Championship Shows at which a minimum of six (6) dogs shall be present and exhibited. The Provincial Council Agility sub-committee will arrange for each judging appointment carried out by the Candidate judge to be observed by a qualified Agility 3 judge who will report back to the Provincial Council Agility sub-committee and endorse the Candidate judge's Record Card if passed.
 - 2.6.1.9 Once all the requirements set out in 2.6.1.2 to 2.6.1.8 inclusive have been met and the Candidate Judge's Record Card has been endorsed by the Agility Test Judges, such Record Card will be sent to KUSA who in turn will issue an Agility Judges Licence to that Judge and thereafter that judge will be able to judge at Championship Show level.
 - 2.6.1.10 In the event of a judge not judging for a period of two (2) calendar years or more such judge may not judge a Championship show but shall first judge a Non-Championship show. Refer regulation 2.6.1.13.
 - 2.6.1.11 All locally domiciled Judges shall be members in good standing of the Kennel Union and shall be over the age of eighteen (18) years at the time when formal studies or activities towards a judging qualification commence, and/or any judging is undertaken.
 - 2.6.1.12 Before approving a foreign Judge to officiate at any event held under this Schedule the Executive Committee shall be satisfied that such Judge is recognised and approved to judge such events in their country of permanent residence as it is proposed they should judge within the KUSA area of jurisdiction.
 - 2.6.1.13 A Judge is required to attend a refresher course/workshop at least once every two (2) years to maintain their championship judging status. Such a refresher course/workshop will be organised by the Provincial Agility Sub-Committee.

If the judges' status lapses, refer regulation 2.6.1.10, they will be required to attend a refresher course/workshop and judge a supervised non-championship show. The provincial Agility Sub-Committee must appoint a (senior) Agility judge to oversee the non-championship show appointment and once passed, the judge may accept Championship show appointments

The Provincial Agility Sub-Committee is to control the Judges attending refresher courses. Once completed, the list of Judges must be sent to the NAgSC, which in-turn will supply these names to KUSA for ratification.

- 2.6.1.14 Any queries that arise at these courses/workshops and that cannot be resolved must be forwarded to the National Agility Sub-Committee for clarification.

3. MANAGEMENT OF AGILITY CLASSES

3.1 Agility Show Manager

The management of Agility classes shall be entrusted to the Agility Show Manager who shall be a member in good standing of KUSA and appointed by the Committee of the Club holding the show.

3.2 Disputes

3.2.1 Any disputed matter requiring a decision on the ground shall be decided by the Agility Show Manager and the Judge(s).

3.2.2 No competitor shall impugn the decision of the Judge. The Judge's decision is final.

3.3 Complaints

Complaints lodged by competitors will be dealt with in accordance with the KUSA Regulations.

3.4 Other Matters

Any matter not provided for in these Regulations or in the Kennel Union Constitution and Schedules shall be decided upon by a simple majority of all the Judges and the Agility Show Manager. In the case of an equality of votes, the Agility 3 Judge, or if there is no Agility 3 Judge, the Agility Show Manager shall have a casting as well as a deliberative vote and the decision made shall be final. In such instances, the Agility Show Manager shall submit a written report to KUSA setting out all the details within fourteen (14) days of the close of the Show.

3.5 Officials

The appointment of all Officials may be approved/confirmed by the Agility Sub-Committee of the local Provincial Council in conjunction with the Show Holding Club. Minimum Officials required as follows: Judge, Scribe, two (2) Timekeepers and one (1) Steward.

3.6 Misconduct at Shows

3.6.1 Physical disciplining of a dog or serious uncontrollable behaviour of a dog at an Agility Show may be penalised at the discretion of the Agility Show Manager by excluding the dog and/or handler from further competition at the Show and/or by ordering the exhibitor of the dog to forfeit any Agility Awards, positions or qualifications gained at the Show.

3.6.2 Harsh handling or unseemly behaviour will be severely condemned and will result in immediate elimination, independently of any complaint that could be lodged against the handler.

3.7 Number of Dogs to be judged.

No Judge shall be required to judge more than a total of Three Hundred (300) dogs in one day. If the number of entries in Classes to be judged by one (1) person exceeds these limits, the Committee of the Club holding the Show shall appoint an extra Judge(s) and shall allocate competitors as equally as possible among the Judges by draw. If a dog which has already been awarded an Agility Qualifying Certificate, is competing in a Championship Agility 3 Show, the handler shall have the right to claim exemption from the draw if one of the additional appointed Judges is the Judge under whom the dog qualified for the award of the said certificate.

3.8 Handler of Dog

Either the owner or deputy may handle the dog but it must be one or the other. Once the dog has commenced with the exercises, an owner must not interfere with their dog if they have deputised another person to handle it.

The dog may be handled by another handler in either the contact or the non-contact round of the competition held under one licence.

3.9 Competing Dogs

3.9.1 All dogs are eligible to enter an Agility competition unless they are:

3.9.1.1 Pregnant bitches

3.9.1.2 VOID

3.9.1.3 Apparently ill or hurt.

3.9.1.4 Doped dogs.

The FCI International Guidelines about Dog Doping, found on the FCI website, need to be viewed in conjunction with this regulation.

3.9.2 Dogs coming from or going to a region infected with rabies must have a valid inoculation certificate against rabies which shall be produced to the Judge or Agility Show Manager. Any dog not possessing such a certificate shall be ineligible to compete.

3.9.3 Bitches in season may compete at the discretion of show holding club, and such permission must be published in the Show Schedule and the Catalogue:

3.9.3.1 Their condition must be declared to the Judge at the commencement of the show.

3.9.3.2 The handler must provide a mat for the bitch at the start line.

3.3.9.3 VOID

3.10 Conditions

It is the responsibility of the Agility Show Manager and of the Judge(s) to ensure that all dogs competing in a class compete under the same conditions as far as this is practical.

3.11 Weather

When any Agility event is held at any open air venue, it shall be at the sole discretion of the Judge whether or not competition in any Agility Class should be interrupted on account of inclement weather. Cancellation of an Agility Show shall be at the discretion of the Agility Show Manager in consultation with the Judge(s).

3.12 Starting Times

All competitors shall be informed of the starting time for their class. Competitors and dogs in each grade shall be present at the site of the show at least thirty (30) minutes before that time. The Judge shall have discretion to postpone the starting time of a class and the draw for order of competition for a reasonable period if competitors in the class are delayed through competition elsewhere in the show falling behind schedule.

Such postponement shall be made known to all competitors in the class who are present. Any competitor who is not present at the end of such postponement shall be regarded as having withdrawn from the Show and shall not be allowed to compete.

The Judge has the discretion to commence a test without all competitors being present.

3.13 Order of Competition

3.13.1 The order of competition shall be determined by a draw among competitors entered, where applicable, for that Class, supervised by the Judge or any person to whom they delegate this authority, immediately before the first exercise of the Class is due to begin.

OR

3.13.2 The order of competition shall be determined by a random computer draw of exhibitor numbers, where applicable, for that Class, on the day before the Show, supervised by the Judge or any person to whom they delegates their authority. In the case of Non-Championship Shows, if there are late entries (i.e.: on the day of the show), these shall run first.

3.14 Briefing of Handlers

Before commencing the competition the Judge may brief the handlers. They may draw their attention to some of the regulations, explaining the nature of the competition, Standard Course Time, Maximum Course Time and the manner in which the competition will be graded.

3.15 Provision of Obstacles

The show holding club in conjunction with the Agility Sub-Committee of the local Provincial Council is responsible for the provision of obstacles, markers and similar objects which may be required in any Class for which entries are accepted. As indicated in the Schedules and Description of Exercises, the Show Holding club is responsible for ensuring that all obstacles, markers, objects and other articles to be used comply with these Regulations.

3.16 Competition by Officials at Shows

3.16.1 Championship Shows:

A Judge at a show may not enter a dog in the same discipline (Breed, Obedience, Working Trials, IGP, Dog Jumping, Carting, Agility Contact, Agility Non-Contact, etc.) as that in which they are officiating. A Judge at a show may not handle a dog in any discipline on the day/s that they are officiating.

This restriction does not apply in respect of another show held on the same day under a different licence.

3.16.2 Non-Championship Shows:

At the discretion of the show holding club, a Judge at a show may enter or handle a dog/s in any other discipline on the day/s that they are officiating providing the following criteria are strictly adhered too:

3.16.2.1 The discipline/class they are judging will take preference at all times.

3.16.2.2 At no time may the discipline/class they are judging be stopped or halted in any way so that they may compete in another discipline/class.

3.16.2.3 The discipline they intend entering must have a commencement time before or after the discipline they are judging.

3.16.3 A KUSA representative may not enter, exhibit or handle a dog registered in their name at any KUSA licensed event held at the same venue on the day that he is officiating, nor in the same Discipline held under the same licence on any day.

3.17 Exhibit Number

Handlers must announce their catalogue number to the scribe when requested, before starting the exercise.

However, it is not necessary to wear the exhibit number while in the ring.

3.18 Agility Show Arenas

3.18.1 Whether the competition is held inside or outside, the Agility Arena shall be a minimum of 24m x 40m. Within this area the ring that the course will be built in must measure at least 20 m. x 40 m.

The Agility Show Manager is responsible for the demarcation of the areas to be used for Agility Classes and is responsible for ensuring that the surface of the arenas are level and clean. (e.g.: no broken glass, nails, etc.).

3.18.2 When two (2) rings are used it is advisable to have a closed partition between them or a distance of approximately 10m.

3.18.3 The perimeter of the arena must be clearly demarcated.

4. JUDGING OF AGILITY CLASS

4.1 Knowledge of the Regulations

All handlers and Judges must have a thorough knowledge of the Regulations covering the class entered or to be judged.

4.2 Dogs Tested Separately

The Judge must test each competing dog separately.

4.3 For safety reasons a dog is not permitted to wear a collar or lead whilst under test.

4.4 Features of Judging

4.4.1 The purpose of Agility exercises is to demonstrate the usefulness and agility of the dog as a companion of man. Agility is meant to test the agility, obedience and fitness of the dog as well as the handler's skill to train and direct their dog faultlessly and quickly through an obstacle course.

4.4.2 It is the responsibility of the Judge to ensure that the exercises being performed are both interesting for spectators and worthwhile for the handler and the dog.

4.4.3 Dogs must be judged on their ability to negotiate the course as laid out and not upon their breed qualities.

4.4.4 Standardised judging is of paramount importance. Judges must not introduce their own variations into the competition and must ensure that each handler and dog executes the various obstacles exactly as described. Judges must adhere strictly to the Regulations.

Where Federal Council has approved the appointment of a Judge whose normal permanent residence is outside the KUSA area of jurisdiction, it shall be the responsibility of the Agility Show Manager to ensure that such Judge is made familiar with and applies the Regulations and terms of this Schedule 5(L).

The FCI Agility Judges Guidelines, found on the FCI website, need to be viewed in conjunction with this Schedule, with the intention that all judges have the same understanding/interpretation of the rules

4.5 Interference with Competitors

The Judge of an Agility Class shall expel from competition any dog entered contrary to Regulation 3.9 and may remove any dog which behaves in an uncontrollable manner, any handler who interferes wilfully with another competitor or their dog, and may expel from competition any dog which he considers unfit to compete, or any bitch which appears so attractive to males as to be a disturbing element, the latter only applies if the show holding club has stipulated that a bitch in season may not compete, see regulation 3.9.3. In the case of doubt an official veterinarian shall be called to give their opinion but the Judge's decision is final.

4.6 Withdrawal/Expulsion from Competition

Any owner, their deputy or any handler entering or competing in an Agility Class does so at their own and the dog's risk and the dog must compete in the Class in which it is entered, unless

expelled by the Judge or excused by the Judge on request by the owner, deputy or handler and Agility Show Manager.

4.7 Discipline of Dogs

From the time the Judge takes control of assembled competitors to begin judging a class until the Judge dismisses the competitors after the results of a class have been announced, no handler in that class shall physically discipline a dog either inside or outside the arena. In the event of such physical disciplining occurring, or in the event of serious uncontrollable behaviour of a dog in the arena, the Judge will severely penalise the dog concerned by adding faults to the total score of the dog. In addition the Judge may, at their discretion, exclude the dog from further competition in the class.

4.8 Practice

4.8.1 Handlers will be allowed to practice with their dogs at a show subject to the provision of paragraph 4.7 but no practice or training may take place in the ring either before the competition commences or while any class is in progress or remains uncompleted, or in such a way as to interfere with or distract competing dogs or handlers.

4.8.2 Competitors will be allowed to walk the course but without their dogs, before the test begins and will have a minimum of five (5) minutes and a maximum of ten (10) minutes to do such, at the Judge's discretion.

4.8.3 At the judge's discretion, a white dog may be used to run the course prior to each height category or grades walking the course.

4.8.4 At the judge's discretion, each height category may be allowed to walk the course separately for each grade or a judge may group certain height categories to walk the course.

4.8.5 A handler that has a dog in more than one (1) height category may only walk the course once.

4.9 Rewarding Dogs

Baiting, the offering of any goods, food substance or other inducement whilst in the arena attracts immediate disqualification. However, words of praise and encouragement are permitted during the competition.

4.10 Handler's Commands

In all classes the handler may use the dog's "call name" and may signal without penalty. The use of any kind of manufactured whistle is prohibited.

4.11 Competitor's Score

As each dog completes an exercise their score for the exercise must be entered by the scorer on a score sheet and that score must be made known to the handler and to spectators before the next competitor commences.

Scores may not be changed subsequently except to correct arithmetical errors or add faults for contravention of paragraph 3.6 or 4.7

4.12 Equal Scores

The following is taken into account to decide equal scores:

4.12.1 If the total faults are the same, the fastest dog is scored first.

4.12.2 If the total faults, course + time faults, are exactly the same after the results have been calculated according to paragraph 8.12 a run-off must be conducted (either a shortened course or a new course) to determine the placing.

4.13 Announcement of Results

After the scores are totalled and winners decided, before announcing the placing, the Judge will inform the public as to the Standard Course Time (SCT) and the Maximum Course Time (MCT). The judge shall then announce the winner, any awards of Agility Qualifying Certificates, and the scores of other competitors placed.

4.14 Abnormal Circumstances

If, in the Judge's opinion, the dog's performance in any exercise was prejudiced by peculiar and/or unusual circumstances, the Judge may re-judge the dog on the entire exercise.

4.15 Additional Commands

The Judge shall position themselves in the arena so as to be aware at all times of physical handling/guiding of the dog.

4.16 Adhering to Regulations

No Judge shall require any dog or handler to do anything nor penalise a dog or handler for failing to do anything which is not required by these Regulations and the Schedule of Description of Exercises.

4.17 Judge's Orders

Judge's/Steward's orders are required to be clearly spoken to be heard by everyone following the judging.

The handler cannot start the dog before the judge has signalled that they are ready.

4.18 Dogs' Qualifying Record Cards

No Judge shall permit a dog to compete in any class which they are judging unless the handler produces, before the start of such class, their Record Card showing that the dog is eligible to compete in that class. Judge's endorsement on the Record Card for each qualification to be sufficient proof of eligibility for that class.

4.19 Entrants from Foreign Countries

4.19.1 When an Agility event is a National event held in terms of Kennel Union Regulations, all entrants from outside the Kennel Union area of jurisdiction are required to obtain a Kennel Union Record Card prior to competing. The Record Card issued by KUSA shall be endorsed at the level of qualification gained outside the area of KUSA jurisdiction. In such instances, awards obtained outside the Kennel Union area of jurisdiction are invalid for the purposes of obtaining a Kennel Union Agility Championship Certificate. Record Cards shall be issued by the KUSA office in Cape Town.

4.19.2 When an Agility event is held under FCI Regulations all exhibitors from outside the KUSA area of jurisdiction shall, prior to the start of the competition, hand to the judge, their Record Card/Results Book from their country of residence in order to verify their dog's Agility qualifications.

4.20 Commencement of Exercise

The handler enters the ring placing the dog in either the "Sit", "Down" or "Stand" position behind the start line. If the dog is still on the lead then the dog's lead and collar are removed and handed to the steward at hand.

The handler is not permitted to have any object in their hands. The handler will be penalised with a fault if he crosses through the "start" line. The handler may position themselves anywhere on the course and may start their dog on the Judge's or steward's signal.

The time will commence running as soon as the dog or handler crosses through the "start" line. The run is finished and the time stopped when the dog crosses the finish line by negotiating the last obstacle in the correct direction.

A variety of commands and signals are permitted during the test. The handler must ensure that the dog traverses the obstacles in the correct order, without him making any physical contact with the dog or any obstacle. The handler may not negotiate any obstacle.

The test is completed and the time stopped when the dog crosses the finish line. The steward hands the lead back to the handler. The handler puts the dog back on the lead and leaves the ring. Handler and dog are under the judge's supervision from the moment they enter the ring until both of them have left the ring.

4.21 Up-Contact Judge

4.21.1 At a Championship or Non-Championship Show, the appointed judge may request an up-contact judge to officiate at any contact. This judge will be at no extra cost to the show holding club and must be organized by the appointed judge.

4.21.2 The up-contact judge may not be a competitor in the same height category that they are officiating.

5. SCHEDULE OF EXERCISE FOR AGILITY CLASS

5.1 General

5.1.1 The aim is to let the dog negotiate the course correctly and within the Standard Course Time. The SCT, however, is only a reference and speed should not be the main criterion. An Agility course is about skill, not about speed.

5.1.2 An Agility course must have three (3) different contact obstacles, (except for force majeure): a maximum of four contact obstacles may be used in an Agility 2 or Agility 3 course (at the judge's discretion)

5.1.3 VOID

5.1.4 Contact obstacles should not be the first or the last obstacle of the course.

5.1.4.1 Not applicable for Non-Contact Agility.

5.1.5 A course is built using as many types of obstacles as possible; the manner in which the obstacles are placed determines the degree of difficulty and speed. The dog must complete the course within a predetermined time and the obstacles must be negotiated in the correct order. Weave poles, tyre, wall and flat tunnel can only be negotiated once on the course.

The flat tunnel, spread jump, tyre and long jump must always be set up for a straight approach, on the dogs' path, from the previous obstacle.

The exit path from the flat tunnel towards the next obstacle must also be straight.

5.1.6 The difference between Agility 1, Agility 2 and Agility 3 are:

1. the length of the course and its degree of difficulty
2. the speed chosen to determine the SCT.

5.2 Course Design

5.2.1 The design of the course is left entirely to the Judge's imagination, but the natural handling side must change at least twice.

5.2.2 Before the start of a competition, the Judge will inspect the obstacles put at their disposal and when they meet the necessary standard, they will hand over their course design to the organizing committee who will then set up the course.

5.2.3 The Judge will check the course and have the length measured precisely.

5.2.4 A well designed course will allow a dog to go round easily and smoothly.

5.2.5 The aim is to obtain the correct balance between the control over the dog, avoiding faults on the obstacles and the speed with which the course is negotiated.

5.2.6 It is advisable to change the design of the course and the position of the obstacles frequently in order to avoid any automation in the dogs.

5.2.7 The actual length of the course for "S, M and L" will be between 100m and 220m.

5.2.7.1 In Agility a dog will be required to traverse from fifteen (15) but no more than twenty two (22) obstacles including at least seven (7) jump obstacles, (Hurdles, Wall, Tyre).

A standard competition set must contain at least fourteen (14) hurdles.

5.2.7.2 In Non-Contact Agility a dog will be required to traverse from a minimum of twelve (12) but no more than twenty two (22) obstacles including a minimum of nine (9) jump obstacles, (Hurdles, Wall, Tyre).

5.2.8 Spread jumps will not be used in Agility/Non-Contact-1.

5.2.9 From the position of the numbers, it must be clear from which side of the obstacle has to be negotiated (with the exception of a U-shaped tunnel where the number can be placed in the middle to indicate that either side can be taken).

5.2.10 The minimum distance on the dog's path between consecutive obstacles in 'L' and 'M' is five (5) metres and in 'S' four (4) metres.

The maximum straight-line distance between consecutive obstacles is seven (7) metres. Both distances should be measured from the nominal point that the dog leaves the obstacle to the nominal point that the dog arrives at the next obstacle.

For hurdles, these are the centres of the bars.

For a tunnel, contact zones, slalom, etc., it is the nominal entry/exit points of those obstacles.

The handler must be able to pass each obstacle on either side; there must be a minimum of one (1) metre between each obstacle with the exception of a tunnel under the A-frame or the dog-walk.

5.2.11 The first obstacle must be a single hurdle. The last obstacle may be either a single hurdle or a spread hurdle.

6. TIMING

6.1 A course is built with obstacles, the set-up of which determines the degree of difficulty and speed. The course must be completed by the dog within a predetermined time and the obstacles must be negotiated in the correct order.

Method of determining SCT is decided by the judge before commencement of the first dog's run and announced at the handler's briefing. Judge may not change their decision after the first dog has run.

6.1.1 Determining the Standard Course Time (SCT)

The speed in metres/seconds chosen on the course will determine the SCT. The speed chosen will depend on the standard of the competition, the degree of difficulty of the course and the surface that the dog has to run on. Small, Medium and Large dogs in each grade will run the same speed and SCT providing all height categories in each grade are running the same course with the same course length and the obstacles set at the correct heights for each height class."

Course time in metres per second where the minimum and maximum course time is set as stipulated below except for A3 that only has a minimum:

Agility 1	Between 2.5 to 3.0 metres per second
Agility 2	Between 3.0 to 3.8 metres per second
Agility 3	Minimum of 3.8 metres per second

Non- Contact Agility 1	Between 3.0 to 3.5 metres per second
Non- Contact Agility 2	Between 3.5 to 4.2 metres per second
Non -Contact Agility 3	Minimum of 4.2 metres per second

The SCT (in seconds) will be determined by dividing the length of the course by the chosen speed (in m/s):

Example: A course is 160m long and the chosen speed is 4.0 m/s. The SCT will be 40 seconds (160 ÷ 4.00)

OR

The SCT (in seconds) is determined by time of the fastest dog, in each height category, with the fewest course faults + 15% and rounded up to the nearest second.

To ensure minimum speed is still acquired in Agility and Non-Contact, Grades 1, 2 and 3, the course must to be measured and the time of the fastest dog with fewest course faults will be used to check if the minimum speed stated in the table above has been acquired. If minimum speed is not acquired no QCs or qualifications are issued.

6.1.2 **Determining the Maximum Course Time (MCT)**

The MCT is determined by dividing the length of the course by 2.0 m/s in Contact Agility and 2.5 m/s in Non-Contact Agility

6.1.3 **Inclement Weather or Uneven Surfaces:**

Weather or surface may create unique circumstances that warrant the judge to vary the present SCT times above. These circumstances may include thick sand, intense heat, excessive rain, slippery conditions and muddy conditions. The judge may add up to 2.5 seconds to the course time. This regulation must be applied separately with respect to Contact and Non-contact Agility. i.e. the inclement weather may clear.

7. **OBSTACLES**

The FCI Agility Obstacle Guidelines, found on the FCI website, need to be viewed in conjunction with this schedule, with the intention that all obstacles used country wide be of the same construction.

7.1 The obstacles approved are:

Jumps	Contacts	Others
- Hurdles	- See-Saw	- Flat Tunnel
- Viaduct or Wall	- A Frame	- Tube Tunnel
- Tyre (collapsible/solid)	- Dog Walk	- Weaving Poles
- Long Jump		

- 7.1.1 In Non-Contact Agility the following equipment must not be used – “A” Frame, Dog Walk, See Saw.
- 7.2 Obstacles may, under no circumstances, be unsafe for the dogs and must comply with the following measurements and be in accordance with the FCI Agility Obstacle Guidelines, found on the FCI website.

7.2.1 The Hurdles:

7.2.1.1 Single
Height:

Small:	25 to 30cm
Medium:	35 to 40cm
Large:	55 to 60cm
Width:	1.2m to 1.3m

Pole size: Diameter of cross bars for all the hurdles shall be between three (3) to five (5) cm. The cross bars should have contrasting colours in at least 3 segments. Hurdles can be set with round cross bars made of wood or safe synthetic material (metal is not allowed), panels, gates, brushes, etc. The top cross bars must be easily displaced. No part (cross bar holder or cups) removable or permanent, should be protruding from the upright or the wing. The dog should not be able to go through any part of the wing. The upright of the wing should be at least 1 m high. The start of the taper towards the outer edge of the wing should be at least 75cm high. The width of the wing is 40 to 60cm. The hurdle wings must not be connected or fixed to each other. Rectangular or triangular shaped wings are not allowed, neither are filled wings.

7.2.1.2 Spread

Two single hurdles placed together to form a double spread jump (hurdles with cross bars only). The cross bars are placed in ascending order with a difference in height of 15cm to 25cm. The highest bar is placed at the back at:
Height:

Size:	Height:	Maximum Width:
Small:	25 to 30cm	30cm
Medium:	35 to 40cm	40cm
Large:	55 to 60cm	50cm

No part (pole holder or cups) removable or permanent, should be protruding from or be outside the upright or wing

7.2.2 The Wall

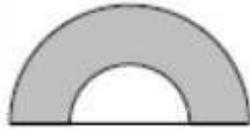

Height:

Small:	25 to 30cm
Medium:	35 to 40cm
Large:	55 to 60cm
Width:	1.2m to 1.3m

Depth: approximately 20cm thick at the bottom, and must be at least 10cm thick at the top. The pillars must be 1m to 1.2m high and must not be connected to the wall elements. Width and depth of the pillars: minimum 20cm and maximum 40cm. If the pillars are round, their diameter must be 30 to 40cm.

The panel can have one (1) or two (2) tunnel-shaped openings and must consist of separate elements, telescopic walls are not allowed. It must have three (3) to five (5) displaceable units at the top. The bottom or the sides of the displaceable units must be closed.

The shape of the units are:

7.2.3 VOID

7.2.4 The Dog Walk

Height: 1.2m – 1.3m maximum

The planks should be a minimum of 3.6m and a maximum of 3.8m in length and 30cm in width.

The surface of the obstacle must be non slippery (Electronic contacts may be used at the contact areas). Each ramp should have anti-slip slats at regular intervals (about every 25cm) to avoid slipping, and making the climb easier, but not within 10cm of the start of a contact area. These slats must be 20mm wide and 5 -10mm thick and must not have sharp edges. The bottom of the contact zone must be filled (no gaps) and not flattened too much (no sharp edges).

The last 90cm from the bottom of each ramp should have a different colour (on the sides as well) to indicate the contact area.

The legs of the dog walk should guarantee that the structure is stable enough and they must not exceed the top level of the obstacle. The legs and other supporting structures of the dog walk should not prevent placing the tunnel under the dog walk safely.

The contact area is not allowed to be white, brown or black.

7.2.5 The See-Saw

The length of the plank should be a minimum of 3.6m and a maximum of 3.8m and 30cm in width. The height of the central bracket should be 60cm, measured from the ground to the top of the plank.

The obstacle must be stable and the surface must be non-slippery (Electronic contacts may be used at the contact areas.) However, anti-slip slats are not allowed. Contact areas: same as the dog walk.

The ends of the plank must not be dangerous to dog or handler. The bottom of the contact zone must be filled (no gaps) and not flattened too much (no sharp edges).

The see-saw must be properly balanced (must not tip to fast or too slow) and allow the small dogs to tip it without problems.

Check: The see-saw must tip between 2 and 3 seconds when a weight of 1 kilo is placed at the center of the down contact area. If this is not the case then adjustments must be made. The axel of the see-saw should not be more than 10cm from the top level of the obstacle. The contact area is not allowed to be white, brown or black.

7.2.6 The A-Frame

Two (2) ramps A-shaped.

Width: 90cm minimum which may be increased at the bottom to 1,15m.

The apex should be:

The frame should be opened and 1,70m high from the ground for all dogs. The length of the ramps should be between 2,65 and 2,75 m.

The surface of the obstacle must be non slippery (Electronic contacts may be used at the contact areas.) Each ramp should have anti-slip slats at regular intervals about every 25cm to avoid slipping and making the climb easier but not within 10cm from the beginning of the contact area.

These slats should be 20mm wide and 5 to 10mm thick and must not have sharp edges. The bottom of the contact zone must be filled (no gaps) and not flattened too much (no sharp edges).

The last 1,06m from the bottom of each ramp should have a different colour (on the sides as well) to indicate the contact area. The top of the A-frame may not present any danger to the dogs and must be covered, if necessary. The contact area is not allowed to be white, brown or black.

7.2.7 The Weaving Poles:

Number of poles: 12

The poles are rigid and have a diameter of 3cm – 5cm. The poles are made of wood or safe synthetic material (metal is not allowed). The height of the poles is 1.0m – 1.2m and they are placed 60cm apart (measure between the poles).

The legs of the weaving poles should not be in the dog's way. The frame should be no thicker than 8mm and no wider than 8cm in total.
The brackets/cups that hold the weave poles in place must be solidly fixed to the frame and not higher than 10cm.

7.2.8 The Tube tunnel:

Diameter: 60cm. Length: from 3.0m to 6.0m.

The tunnel has to be flexible and it is recommended that it should be made from a uniformly surfaced material in a light colour.

Tube tunnels must always be pulled out to their full length.

When securing the tunnel, the strapping or webbing must follow the contours of the tunnel and not cause it to become misshaped or its diameter to be reduced.

7.2.9 The Flat Tunnel

It must have an entrance of rigid or semi ridged construction with a depth of 90cm.

The entrance has a height of 60cm and a width of 60cm to 65cm and the bottom is flat. The surface of the entrance floor must be non slippery and non-abrasive.

The exit is made out of supple material and is from 1.8m to 2.2m long.

The diameter is from 60cm to 65cm. The entrance must be secured to prevent movement. The leading edge must be covered with protective material. The exit must not be pegged down.

7.2.10 The Tyre

Aperture diameter: 45cm – 60cm

Aperture centre from the ground: L – 80cm M and S: 55cm

The width of the tyre is minimum 8cm, and maximum 18cm.

7.2.10.1 Framed Tyre

The tyre must be adjustable in height (chains or rope), fixed or rigid attachments are not allowed. The tyre must be able to break away into two (2) to four (4) parts when a force equivalent to a weight of 8 kg is exerted on it.

The base of this obstacle must be approximately 1.5 x the height measured from the floor to the top edge of the tyre, in 'L' category.

The width of the frame must not exceed 1.5m.

The distance between the inside of the frame upright and the outside edge of the tyre must be at least 15cm.

Note: the above regulation and obstacle will be phased out-before December 31, 2020 in favour of the frameless tyre.

7.2.10.2 Frameless Tyre

The tyre must have a consistent shape, constructed using an impact absorbing material. The tyre is fixed into position (height) by two (2) uprights on either side of the tyre.

The construction must provide sufficient stability to ensure that the obstacle is not tipped over too easily.

The uprights must not protrude above the top of the tyre.

There should be no beam across the top.

Breakaway frameless tyres may also be used.

7.2.11 The Long jump:

Two (2) to four (4) separate units comprise the long jump.

The overall length is:

Category:	Length:	Number of Units:
Small	40 to 50 cm	Two (2)
Medium	70 to 90 cm	Three (3)
Large	1.2 to 1.5m	Four (4)

Width of the jump: 1.2m at the front, possibly 1.5m at the back.

Height of the highest unit: 28cm

Height of the lowest unit: 15cm

Depth of each unit: 15cm slightly slanting.

Units are placed in ascending order.

Corner poles with a minimum height of approx. 1.2m to 1.3m and a diameter of 3 to 5cm, should be placed at all four corners.

The top of these poles should be covered for protection.

The corner poles must not be fixed to the units.

These corner/marker poles are not considered part of the obstacle, they are just a judging guide.

The angle of inclination of the units must be such that the front edge of each unit is no higher than the back edge of the previous unit.

All the planks (but not necessarily the feet) of the long jump must be made of wood or safe synthetic material (metal not allowed).

7.2.12 Start & Finish:

If timing equipment is used, it must be placed as close as possible to the first and last obstacles; it defines the start and finish lines. If not, the first and last obstacles define the start and finish lines.

If a dog runs by the first obstacle then it will be faulted with a refusal and the manual time will start as the dog passes the start line. There should be enough room (at least 6 meters) for the dog at the start and at the finish.

8. FAULTS

Each attempt to negotiate an obstacle must be judged.

8.1 Penalties apply in case of:

8.1.1 Faults for failure to negotiate the course correctly.

8.1.2 Faults for failure to complete the course within the SCT.

8.2 Time Faults

Exceeding the SCT:

The number of time faults is equal to the amount by which the course time exceeds the SCT.

The course time must be measured with a precision of 0.01 seconds.

8.3 General

8.3.1 VOID

8.3.2 A handler who gains an advantage by touching their dog or an obstacle, will be faulted five (5) faults each time it occurs.

8.4 Faults on the Course

All course faults are penalised five (5) faults.

8.5 Knock Downs

When negotiating an obstacle, it is a fault each time any part of the obstacle (pole, wing, tile...) is knocked down five (5) faults.

Note: if an obstacle has to be re-negotiated later on in the course, then it should be rebuilt in time by the helpers (no elimination).

8.6 Refusals:

8.6.1 Any of the following will be considered as a refusal.

8.6.1.1 A dog that stops in front of an obstacle.

8.6.1.2 A dog that runs past an obstacle.

8.6.1.3 Jumps between the tyre and the frame (Framed tyre).

8.6.1.4 A dog that stops on the course.

8.6.1.5 A dog that puts its head or one paw in the tunnel and comes back out again.

8.6.1.6 A dog that runs past the beginning of the first contact area of a contact obstacle and has to be brought back to negotiate the obstacle.

8.6.1.7 A dog turns away from an obstacle.

8.6.1.8 A dog that goes under the pole of a hurdle.

8.6.1.9 A dog that jumps over a tunnel or hurdle wing.

8.6.1.10 A dog that jumps in and out from the side of the long jump.

8.6.1.11 A dog that runs under or jumps over a contact obstacle.

Note: A dog can only be faulted with a refusal for stopping in front of an obstacle, turning away from an obstacle or running by an obstacle when it is on the side of the obstacle from which it should be negotiated.

8.7 Compulsory Contact Area:

On the A-frame, Dog Walk and See-Saw the dog must touch the up as well as the down contact with at least one paw or part of its paw.

Failure to do so: five (5) faults on each occasion.

The dog is considered to have left the obstacle when all four paws are on the ground.

8.8 Refusals must be corrected:

Failure to do so will result in elimination.

The same applies to the weaving poles, where mistakes must be corrected immediately.

Other faults: knock-downs or missing a contact area, the dog will be penalised but it continues its run.

8.9 Faults on specific Obstacles:

8.9.1 Tunnels

When approaching the obstacle from the side, any incorrect attempt to negotiate the tunnel (e.g. jumping over it) is penalised with a refusal five (5) faults.

8.9.2 The Dog Walk

The dog that jumps off the obstacle before touching the descending ramp with four (4) paws will be penalised with a refusal five (5) faults.

8.9.3 The See-Saw

The dog that jumps off the obstacle before passing the pivot point with four paws, will be penalised with a refusal five (5) faults.

The See-Saw must touch the ground before the dog alights off the obstacle otherwise it will incur five (5) faults.

8.9.4 The A-Frame

The dog that jumps off the obstacle before touching the descending ramp with four (4) paws will be penalised with a refusal five (5) faults.

The dog that has passed the top of the A-frame and touches the ground before having touched the descending ramp is eliminated.

8.9.5 The Weaving Poles

8.9.5.1 The first pole must be on the left of the dog, the second on the right and so on.

Each incorrect entry, even when the dog approaches from the side, will be penalized with a refusal five (5) faults.

For further errors a dog should only be penalised once, with five (5) faults.

Every mistake must be corrected immediately or the dog can be taken back to the beginning.

Back weaving (more than two (2) gates) will result in elimination.

The obstacle must be completed correctly before negotiating the next obstacle, failure to do so will result in elimination on the next obstacle.

8.9.6 The Long Jump

The units of the obstacle are evenly spaced and in ascending order to make a jump as stated in regulation 7.2.11

8.9.6.1 Running past, jumping in from or out to the side and not traversing the complete obstacle will be penalised with a refusal five (5) faults.

8.9.6.2 Knocking down one of the units will be penalised with a fault five (5) faults.

No other contact is faulted.

8.9.6.3 The dog or handler will not be faulted when they touch or knock down one of the marker poles of the long jump, even when this causes one of the units to fall down.

8.9.7 Breakaway tyre

If the tyre breaks apart when the dog jumps through it = five (5) faults.

8.10 Elimination's

8.10.1 Reasons for elimination's

8.10.1.1 Unseemly behaviour towards the Judge.

8.10.1.2 Harsh handling/behaviour with the dog.

8.10.1.3 Exceeding the Maximum Course Time (MCT).

8.10.1.4 Three (3) refusals on the whole course.

- 8.10.1.5 Taking or touching an obstacles out of sequence, including going under or over an obstacle; however, going under the A-frame or the dog walk is allowed in the case of a refusal of a tunnel placed under the obstacle.
 - 8.10.1.6 Forgetting to take an obstacle.
 - 8.10.1.7 Taking an obstacle in the wrong direction.
 - 8.10.1.8 If the dog knocks down/destroys an obstacle, before it is negotiated, such that it can no longer do so correctly.
 - 8.10.1.9 Handler negotiates an obstacle themselves in any manner.
 - 8.10.1.10 If the handler knocks down/destroys an obstacle at any time while on course.
 - 8.10.1.11 Handler holding something in their hand.
 - 8.10.1.12 Replacing the dog at the start after it has crossed the start line (unless instructed by the Judge).
 - 8.10.1.13 Dog wearing a collar.
 - 8.10.1.14 Handler stopping Dog from completing the course (unless instructed by the Judge) i.e. the handler retires the dog.
 - 8.10.1.15 Dog fouls the ring or leaves the ring unless still under control.
 - 8.10.1.16 Dog no longer under control.
 - 8.10.1.17 Negotiating the next obstacle before correctly completing the weaving poles.
 - 8.10.1.18 Dog snapping constantly at the handler.
 - 8.10.1.19 Starting the run before the judges start signal.
 - 8.10.1.20 If the dog refuses the breakaway tyre and it breaks apart.
- 8.10.2 Elimination means that the dog is disqualified and handler and dog must leave the ring as quickly as possible, unless the judge decides otherwise. Elimination must be indicated clearly (whistle, etc.) by the judge.
The judge will deal with all unexpected circumstances and must be consistent at all times.

8.11 Force Majeure

Under circumstances beyond the handler's control, such as dropped obstacles, twisted cloth of the collapsible tunnel, etc., the Judge can stop the handler and when the obstacle has been rebuilt, the judge will restart the dog from the beginning. All faults incurred before the dog was stopped will still apply. Up to that point no other faults will be given, however, the handler still has to negotiate the course to the best of their ability; i.e. must make a good attempt. Additional faults will be incurred only after the point at which the dog was originally stopped.

8.12 Results

When working out the placing the following is taken into account:

- 8.12.1 Total penalty (course penalty + time penalty)
- 8.12.2 See regulation 4.12
- 8.12.3 VOID

Example: SCT - 60 seconds

Number	Course Penalty	Time	Time Penalty	Total Penalty	Placing
7	5	58.71	0.00	5.00	2
12	0	65.00	5.00	5.00	3
18	5	57.25	0.00	5.00	1
4	0	68.32	8.32	8.32	4
15	10	59.17	0.00	10.00	5
2	5	65.00	5.00	10.00	6
