WHO ARE WE?

At K9-Drive, we believe every dog thrives in a structured environment built on trust, security, and leadership. Our mission is to equip owners with the skills and knowledge to raise confident, well-mannered dogs who are fulfilled and happy members of the family. Through strong, balanced leadership training, we help create clear boundaries and a safe, supportive environment where dogs thrive and feel secure.

OUR TRAINING PHILOSOPHY

Dogs thrive on structure. Our training approach works with your dog's natural instincts through clear communication, calm leadership, and consistent guidance. Each session deepens your bond and builds your dog's respect for you as a confident, fair leader.

OUR SERVICES

Every training plan is tailored to the individual dog and handler. All sessions are **one-on-one**, allowing us to work at your pace and focus on your specific goals. There is no set timeframe for progress. The categories below serve as a guide to the types of training we offer, but your dog may benefit from elements across multiple areas, regardless of age.

- 1. Puppy Foundations** – Socialisation, confidence building, crate training, leash skills, and basic obedience etc.
- 2. Basic-Intermediate Obedience** – Sit, down, stay, heel, recall, impulse control, and calmness etc.
- 3. Advanced Obedience & Off-Leash Reliability** – Distance control, emergency downs, CGC (KUSA registered).
- 4. Behaviour Modification** – Reactivity, anxiety, resource guarding, leash pulling, trauma rehabilitation.
- 5. Specialised Training** – For high-drive breeds: Agility, IGP, Scent Work, and Civil Protection.

why dogs love Ultimate Canine Nutrition!

What breeders say...

"Alec (Great Dane) is doing absolutely amazing. He has bulked out, the food is affordable, his skin is fine and his poop is firm. Not only is he happy, but so are my two other dogs. My old female cattledog copes well on UCN thanks to the joint support and my "prone to obesity" cattledog male copes very well on UCN as well and leaves him enough energy for agility training!

I plan to raise my new pup on the brand too! Very impressed!"
