Dear Secretary Mrs Pascale Midgley

FEDCO AGENDA ITEMS 16.4 & B16.5

WE, the undersigned wish to comment on the items referred to above.

- 1 On a point of order, this item should not have been discussed at all as it does not appear on the agenda for the meeting and the proposal has never been put to the Provincial Council nor has it been put to the National Obedience Sub Committee of any of the disciplines. Furthermore, it is not competent for the office to propose changes to schedules. The office may only bring matters of genuine house-keeping to the Fedco and then only after it being put to the Provcos. On this basis we request that this be removed entirely and submitted through the proper channels.
- 2 In view of our point 1, it hardly seems appropriate to respond in any detail to the proposed changes except to say that it is deeply flawed on many levels. As this is far reaching and involves all disciplines and all the disciplines sub committees that need jointly to consider them carefully and to constructively comments and to provide the expert guidance expected of the National Sub Committees..
- 3 Please consider this a forma request to rescind these items and to adhere to the correct procedures.

Regards

Rex Koning
