

Guidelines for the registration of litters resulting from Artificial Insemination

Schedule 2 Reg. 4.5 - *In the case of a dog bred by means of artificial insemination such properly authenticated documentary evidence required by the Kennel Union shall be submitted:-*

Schedule 2 Reg.4.4 – *In the case of those breeds listed in Appendix “C” to this Schedule the Sire and Dam shall comply with the specific requirements detailed:-*

IMPORTATION OF FROZEN SEMEN

Prior to importing any frozen semen, it is strongly recommended that members consult with a veterinary fertility service and consult with the State Veterinary Services to establish health test requirements in order to attain the required **Veterinary Import Permit**.

Contact: Directorate of Veterinary Services

Import – Export Policy Unit

Private Bag X 138, Pretoria, 001

Fax: 012 329 8292

Kennel Union requirements to be met for registration purposes:-

☐ SEMEN COLLECTION & STORAGE CERTIFICATE

Must be on letterhead & contact details of the Veterinary Institution / Service where semen collection took place

Donor Dog details- Breed/ Full registered name/ Overseas Kennel Club Registration Number/ Microchip number/ Tattoo number/Colour/ Date of Birth

Details of Owner(s) of the donor dog at time of collection -Title/Initials/Surname/ Address/Email/ Telephone No

Semen Collection Details: Date(s) of collection/ Number of straws collected/ **ID Label markings of straws**/ form of storage (pellets, ampules, vials, straws)

Signed Declaration from Veterinarian- Confirming that the donor dog was positively identified via microchip & semen was collected and stored. (Electronic/ Digital signatures accepted)

Signature of Owner(s) –witness and approval of collection & storage. Signature of all owners of donor dog required.

A template of a Semen Collection Certificate can be attained from the KUSA Office (info@kusa.co.za) or can be downloaded from the KUSA website

([www.kusa.co.za>documents>fees&forms>kusaforms>artificial insemination](http://www.kusa.co.za/documents/fees&forms/kusaforms/artificial%20insemination))

☐ CONFIRMATION OF OWNERSHIP OF DONOR SEMEN

Written approval bearing a signature and contact details of the owner of the overseas donor dog confirming that the semen was purchased for the purpose of artificial insemination by the applicant. (Title, Initials, Surname & South African address of the applicant is required) The name of the owner(s) of the sire must coincide with the name of the owner(s) recorded on the Certified Pedigree/ Certificate of Registration issued by a recognised Kennel Club.

Number of straws sold, date of sale & transfer of ownership & **ID Label markings of the straws** must be declared and linked to the Semen Collection Certificate (Certificate reference number or date).

A template of a Confirmation of Ownership declaration can be attained from the KUSA Office (info@kusa.co.za) or can be downloaded from the KUSA website ([www.kusa.co.za>documents>fees&forms>kusaforms>artificial insemination](http://www.kusa.co.za/documents/fees&forms/kusaforms/artificial%20insemination))

OR

The owner of the overseas donor dog must sign the official Kennel Union application form for the registration of a complete litter. The name of the owner(s) of the sire must coincide with the name of the owner(s) recorded on the Certified Pedigree/ Certificate of Registration issued by the overseas Kennel Club

❑ **CERTIFIED PEDIGREE OF DONOR DOG**

Copy of Certificate of Registration / Certified Pedigree of donor dog providing 3 generations of ancestry issued by a foreign Kennel Club in reciprocity with or recognised by the Kennel Union of Southern Africa.

Legible copy of complete certified pedigree is required (original certified pedigree not required)

Donor dog must be micro chipped & microchip number must appear on Certified Pedigree/ Certificate of Registration

If the name of the owner of the donor dog does not appear on the Certificate of Registration/Certified Pedigree a separate Certificate of Ownership issued by the overseas Kennel Club will be required (e.g. Kennel Club UK & American Kennel Club)

When the owner of the foreign registered sire declared on the Certified Pedigree differs from the owner of the donor semen declared on the semen collection certificate then written confirmation will be required to be attained from the registered owner of the donor dog confirming that the donor semen is the rightful property of the person named on the semen collection certificate. (Confirmation of Ownership of Donor Semen)

❑ **CERTIFICATE OF INSEMINATION**

Letterhead & contact details of the Veterinary Institution / Service where insemination took place

Details of Bitch inseminated – Breed/ Full Registered Name/ KUSA Registration no./ Microchip no./ Tattoo no./ Colour /Date of Birth

Name of Owner of Bitch - Title/Initials/Surname

Signature of Owner(s) –witness and approval of insemination. Signature of all owners of the dam is required.

Donor Dog details- Breed/ Full registered Name/ Overseas Kennel Club Registration Number/ Microchip no. / Tattoo no. /Colour/ Date of Birth/Date semen was collected

Signed Declaration from Veterinarian- confirming the Bitch was positively identified via microchip, number of straws used, **confirming identification of donor semen straw labels** & storage facility, date(s) insemination was performed & method of insemination used. (Digital/electronic signatures accepted)

A template of a Certificate of Insemination can be attained from the KUSA Office (info@kusa.co.za) or can be downloaded from the KUSA website ([www.kusa.co.za>documents>fees&forms>kusaforms>artificial insemination](http://www.kusa.co.za/documents/fees&forms/kusaforms/artificial%20insemination))

❑ **APPLICATION FOR REGISTRATION OF A COMPLETE LITTER**

Application form to be completed & signed by all owners of the dam

Indicate on the application form – mating by Artificial Insemination

Signature for the witness of mating not required. (Certificate of insemination will bear required signatures)

Owner(s) of the dam must be current members of KUSA & Kennel Name must be registered & current.

Dam must be registered with KUSA & must be micro chipped.

Owner of the Sire – signature of the overseas owner of the donor dog is not required if acceptable documentation is submitted confirming that the donor semen was purchased & is owned by the applicant(s) residing in SA. (Confirmation of Ownership of Donor Semen)

-in the case where donor semen has not been sold & remains the property of the overseas owner of the donor dog, the overseas owner will be required to sign the application form as the owner of the sire.

All puppies in the litter must be micro chipped (microchip certificates must be attached to application form. Microchip certificate must record name of person that did implantation & date of implantation)

□ **BREED SPECIFIC REGISTRATION REQUIREMENTS (Refer to Schedule 2 Appendix C, E, F)**

Setter (Irish) – donor sire must be CLEAR or INHERITED CLEAR for CLAD/PRA rcd 1/LOPRA rcd 4

Setter (Red & White) - donor sire must be CLEAR or INHERITED CLEAR for CLAD/ Vwd

Setter (Gordon) - donor sire must be CLEAR or INHERITED CLEAR for LOPRA rcd 4

Rottweilers – *Refer to Schedule 2 Appendix C & E*

- The donor sire must have been screened for HD & ED. HD & ED screening must have been done after the donor sire reached the age of 12 months.
- Only FCI / ADRK grading's will be accepted & HD results will only be accepted from FCI recognised institutions & Veterinary Universities (Refer to KUSA Office or Rottweiler Breed Council for more specific details)
- The donor sire must have been over the age of 18 months at the time the semen was collected.
- The donor sire HD grade may not be lower than C2:C2 (refer to Schedule 2 App C for acceptable dam to sire HD combinations)

German Shepherd Dogs – *Refer to Schedule 2 Appendix C*

- The donor sire must have been over the age of 18 months at the time the semen was collected
- The donor sire must have been screened for HD (ED recommended but not mandatory)
- The donor sire HD grade may not be less than D1:D2 or D2:D1 (refer to Schedule 2 App C for acceptable dam to sire HD combinations)

Alaskan Malamute - *Refer to Schedule 2 Appendix C*

- The donor sire must have been screened for HD
- The donor sire HD grade may not be lower than C2:C2 (refer to Schedule 2 App C for acceptable dam to sire HD combinations)

Dobermann - *Refer to Schedule 2 Appendix C*

- The donor sire must have been screened for HD
- The donor sire HD grade may not be lower than B2:B2 (refer to Schedule 2 App C for acceptable dam to sire HD combinations)

Giant Schnauzers - *Refer to Schedule 2 Appendix C*

- The donor sire must have been screened for HD
- The donor sire HD grade may not be lower than C2:C2 (refer to Schedule 2 App C for acceptable dam to sire HD combinations)

Rhodesian Ridgebacks - *Refer to Schedule 2 Appendix C*

- The donor sire must have been screened for HD
- The donor sire HD grade may not be lower than B1:B1 (refer to Schedule 2 App C for acceptable dam to sire HD combinations)

Weimaraner - *Refer to Schedule 2 Appendix C*

- The donor sire must have been screened for HD
- The donor sire HD grade may not be lower than C2:C2 (refer to Schedule 2 App C for acceptable dam to sire HD combinations)

Biewer Terrier - *Refer to Schedule 2 Appendix F*

- The donor sire must have been DNA profiled by an ISAG laboratory & parentage verified via DNA parentage verification

□ **FEES DUE** (As at Sep 2014)

Recording details of foreign registered sire on KUSA data base = R338

Registration of litter = R230.00 per puppy (under 6 months)

Registration of Rottweiler litter = R253.50 per puppy (under 6 months)

Registration of Boxer litter = R 251.00 per puppy (under 6 months)

Refer to Schedule 7 (Schedule of Fees) for other options.

Frozen Semen - KUSA registered donor dog
Kennel Union requirements to be met for registration purposes:-

❑ **SEMEN COLLECTION & STORAGE CERTIFICATE**

Must be on letterhead & contact details of the Veterinary Institution / Service where semen collection took place

Donor Dog details- Breed/ Full registered name/ KUSA Registration Number/ Microchip number/ Tattoo number/Colour/ Date of Birth

Details of Owner(s) of the donor dog at time of collection -Title/Initials/Surname/ Address/Email/ Telephone No

Semen Collection Details: Date(s) of collection/ Number of straws collected/ **ID Label markings of straws**/ form of storage (pellets, ampules, vials, straws)

Signed Declaration from Veterinarian- Confirming that the donor dog was positively identified via microchip & semen was collected and stored.

(Electronic/Digital signatures accepted)

A template of a Semen Collection Certificate can be attained from the KUSA Office (info@kusa.co.za) or can be downloaded from the KUSA website

([www.kusa.co.za>documents>fees&forms>kusaforms>artificial insemination](http://www.kusa.co.za/documents/fees&forms/kusaforms/artificial_insemination))

❑ **CERTIFICATE OF INSEMINATION**

Letterhead & contact details of the Veterinary Institution / Service where insemination took place

Details of Bitch inseminated – Breed/ Full Registered Name/ KUSA Registration no./Microchip no./ Tattoo no./ Colour /Date of Birth

Name of Owner(s) of Bitch - Title/Initials/Surname

Signature of Owner(s) –witness and approval of insemination. Signature of all owners of the dam is required.

Donor Dog details- Breed/ Full registered Name/ KUSA Registration Number/ Microchip no. / Tattoo no. /Colour/ Date of Birth/Date
semen was collected

Signed Declaration from Veterinarian- confirming the Bitch was positively identified via microchip, number of straws used, **confirming identification of donor semen straw labels** & storage facility, date(s) insemination was performed & method of insemination used. (Digital/electronic signatures accepted).

A template of a Certificate of Insemination can be attained from the KUSA Office (info@kusa.co.za) or can be downloaded from the KUSA website

([www.kusa.co.za>documents>fees&forms>kusaforms>artificial insemination](http://www.kusa.co.za/documents/fees&forms/kusaforms/artificial_insemination))

❑ **APPLICATION FOR REGISTRATION OF A COMPLETE LITTER**

Application form to be completed & signed by all owners of the dam & sire

Indicate on the application form – mating by Artificial Insemination

Signature for the witness of mating not required. (Certificate of insemination will bear required signatures)

Owner(s) of the dam must be current members of KUSA & Kennel Name must be registered & current if kennel name is to be used as a prefix.

Dam must be registered with KUSA & must be micro chipped.

Owner(s) of the Sire must be current members of KUSA (except when sire is registered with GSD Federation)

Sire must be registered with KUSA or by a KUSA recognised registry (E.g. GSD Federation) & must be micro chipped

Signature of the REGISTERED owner of the donor dog is not required if acceptable documentation is submitted confirming that the donor semen was purchased & is rightfully owned by the applicant(s), details of which correspond to and are recorded on the application form.

(Confirmation of Ownership of Donor Semen)

In the case where donor semen has not been sold & remains the property of the registered owner of the donor dog, the registered owner will be required to sign the application form as the owner of the sire.

All puppies in the litter must be micro chipped (microchip certificates must be attached to application form. Microchip certificate must record name of person that did implantation of the microchip & date of implantation)

□ **BREED SPECIFIC REGISTRATION REQUIREMENTS (Refer to Schedule 2 Appendix C, E, F)**

Rottweilers – *Refer to Schedule 2 Appendix C & E*

- The donor sire must have been screened for HD & ED. HD & ED screening must have been done after the donor sire reached the age of 12 months.
- Only FCI / ADRK grading's will be accepted & HD results will only be accepted from FCI recognised institutions & Veterinary Universities (Refer to KUSA Office or Rottweiler Breed Council for more specific details)
- The donor sire must have been over the age of 18 months at the time the semen was collected.
- The donor sire HD grade may not be lower than C2:C2 (refer to Schedule 2 App C for acceptable dam to sire HD combinations)

German Shepherd Dogs – *Refer to Schedule 2 Appendix C*

- The donor sire must have been over the age of 18 months at the time the semen was collected
- The donor sire must have been screened for HD & ED (ED not mandatory if donor sire is registered with GSD Federation)
- The donor sire HD grade may not be less than D1:D2 or D2:D1 (refer to Schedule 2 App C for acceptable dam to sire HD combinations)

Alaskan Malamute - *Refer to Schedule 2 Appendix C*

- The donor sire must have been screened for HD
- The donor sire HD grade may not be lower than C2:C2 (refer to Schedule 2 App C for acceptable dam to sire HD combinations)

Dobermann - *Refer to Schedule 2 Appendix C*

- The donor sire must have been screened for HD
- The donor sire HD grade may not be lower than B2:B2 (refer to Schedule 2 App C for acceptable dam to sire HD combinations)

Giant Schnauzers - *Refer to Schedule 2 Appendix C*

- The donor sire must have been screened for HD
- The donor sire HD grade may not be lower than C2:C2 (refer to Schedule 2 App C for acceptable dam to sire HD combinations)

Rhodesian Ridgebacks - *Refer to Schedule 2 Appendix C*

- The donor sire must have been screened for HD
- The donor sire HD grade may not be lower than B1:B1 (refer to Schedule 2 App C for acceptable dam to sire HD combinations)

Weimaraner - *Refer to Schedule 2 Appendix C*

- The donor sire must have been screened for HD
- The donor sire HD grade may not be lower than C2:C2 (refer to Schedule 2 App C for acceptable dam to sire HD combinations)

Biewer Terrier - *Refer to Schedule 2 Appendix F*

- The donor sire must have been DNA profiled by an ISAG laboratory & parentage verified via DNA parentage verification

□ **FEES DUE** (As at Sep 2014)

- Registration of litter = R230.00 per puppy (under 6 months)
- Registration of Rottweiler litter = R253.50 per puppy (under 6 months)
- Registration of Boxer litter = R 251.00 per puppy (under 6 months)
- Refer to Schedule 7 (Schedule of Fees) for other options.

Fresh Semen - KUSA registered donor dog

Kennel Union requirements to be met for registration purposes:-

The Dam & Sire present at time of semen collection & insemination.

☐ **APPLICATION FOR REGISTRATION OF A COMPLETE LITTER**

Application form to be completed & signed by all owners of the dam & sire

Indicate on the application form – mating by Artificial Insemination

A signed declaration from the person that collected the semen & signed declaration from the person that inseminated the semen will be required.

Declaration: I certify that on this day ... of this month... in year I collected fresh semen from Dog Registered Name
with KUSA Registration Number ; Microchip numberfor the purpose of
insemination of the Bitch Registered Name with KUSA Registration Number;
Microchip number The named Bitch was present during the collection process.

Name:

Signature:

Declaration: I certify that on this day ... of this month... in year I inseminated the Bitch Registered Name with KUSA
Registration Number; Microchip number with fresh semen collected from
